Comments/Feedback (use reverse side if necessary):

We will build a house at 425 W Hutchison which is within the proposed expansion. This meeting open house was useful in clarifying the Role the Historic Society might play in the project we have planned. The proposed development

Historic District Expansion Open House

at the old Lamar Annex is a concern, mostly regarding the scale of the development. (Too Large)
We hope to have our house plans approved very soon so that we can build & begin to enjoy living in such a great location. It's important to preserve the quality of the neighborhood.
Thanks to yall for giving us the opportunity to attend this open house & learn about the Historic District Expansion & it's potential impact to our project. Alison Brake was most informative.

We will be building our home at 621/625 W. Hutchison this year & hope to have the plans approved by the city before the annexation is approved so additional meetings/processes with the commission wouldn't be

Historic District Expansion Open House

required. However, after speaking w/ Alison + Bob Holder we feel reassured that the process wouldn't be overly complicated or cumbersome.

It would be beneficial to the neighborhood + community to have more checks + balances in place, such as the proposed expansion, to influence a downsizing of the initial Lindsey Hill development proposal so a huge megastructure doesn't dominate + negatively impact the character + quality of life in the area. Traffic infrastructure is inadequate. However, we would not be entirely opposed to a significantly smaller, ~~denser~~ something ~~condensed~~
