Mr. Stapp stated the program for suspended utility disconnection for nonpayment or late payments has expired and we will have a staff recommendation at the next council meeting to determine when to resume utility disconnections where appropriate in January 2021. Mr. Stapp mentioned that staff will do extension outreach in November and December and there are current payment plans available and we will promote the utility assistance program through Community Action.

Mayor Hughson asked about the testing type Mr. Stapp mentioned at Lucio Park, it is a cheek swab test and results come back within 48 hours and if positive they are asking people to follow up with nasal test.

Council Member Baker asked if we are doing the right thing listening to what the state and federal are recommending regarding re-opening given the recent outbreak. Should we question their advice? Mr. Stapp stated we are looking at the Governors orders and in combination with the county numbers which are going down. Council Member Baker expressed concerns about the numbers
Mr. Stapp stated anybody can get tested at any time and at any day with or without symptoms. Council Member Baker asked if we are monitoring and testing city employees regularly. He feels we need to have constant testing in order to open in a safe way. Mr. Stapp stated if an employee is asymptomatic they are not being tested and but have tested those that are symptomatic with 39 positives since March and 400 tested negative. Mr. Stapp stated there are two city employees with test pending and both employees are quarantined. Mr. Stapp stated that we do not have the capacity to test all city employees.

Council Member Derrick expressed concerns that the City should be an example to others and thinks we may be reopening too soon. She is concerned that we should be testing more employees and more contact tracing should be done.

Deputy Mayor Pro Tem Rockeymoore asked if there are any efforts at the County level or hospitals to improve the testing methods and our outreach. Mr. Stapp mentioned that an example is the free testing site at Lucio Park and a lot of communities are not doing this. Deputy Mayor Pro Tem Rockeymoore asked if further testing on antibodies will help with the numbers or contribute to contact tracing. Mr. Stapp stated when testing antibodies, we wouldn't have an idea on when they had it; it is valuable to know how much immunity is in the population and now needs to concentrate on the diagnostic testing. Deputy Mayor Pro Tem Rockeymoore stated the numbers are going down and if in the fall or winter will there be a danger for a second wave? Mr. Stapp stated it is outside of his expertise but is concern with the flu and COVID together and is encouraging the public to get the flu shot. Mr. Stapp stated that Human Resources is organizing a flu drive thru opportunity for city employees.

Deputy Mayor Pro Tem Rockeymoore asked if there are any indications from health officials that there could be a spike in numbers during the fall or winter and is there weekly meetings in regards to COVID with mayors and directors?

Mr. Stapp stated there is always a concern for a spike especially after Halloween there could be a possibility of a spike and meetings are occurring every Monday at a local level and every two weeks Hays County has an elected official’s call. Deputy Mayor Pro Tem Rockeymoore stated that Mayor and
council were invited to the meetings but that stopped. Mayor Hughson stated that it was due to Texas Open Meeting Act since all council members were invited and would probably violate the Act. Deputy Mayor Pro Tem Rockeymoore stated during the meeting some council will not participate verbally and still finds a concern for openness and transparency. Mr. Stapp stated that was made by the County level and city staff take good notes. Mayor Hughson stated it is coordinated by the County Judge and makes those decisions.

Council Member Derrick stated we are getting TXST numbers but would like to know if it is from San Marcos or Round Rock campuses, how are we getting true number? Mr. Stapp stated if a student or staff get tested positive they will be reported to County of residences at the time of diagnoses. Council Member Derrick asked if TXST can divide the numbers between Round Rock and San Marcos. Mr. Stapp stated that Williamson County and Hays County are separated on the dashboard and will break down the numbers with the Hays County campus.

Mayor Hughson asked if TXST can show a breakout of San Marcos residents and the rest of the County. Mr. Stapp mentioned if they are diagnosed in San Marcos it is considered with TXST but if student or staff drive into school then they will be counted in the county they live in.

Council Member Gonzales would like to see the numbers of deaths for each month. Mr. Stapp will provide a report to Council.

Mayor Hughson opened the Public Hearing at 8:19 p.m.

Those who spoke:

Lisa Marie Coppoletta expressed concerns about the timing of public hearing being later than 7:00 p.m and how this causes transparency issues. Ms. Coppoletta said it is important to have dialogue between the developer or applicant and involved citizens. Concerned about flash flooding in the area.

David Earl spoke on behalf of the applicant. He noted that all parties to the lawsuit involving the Mayan, including the Cities of San Marcos and Martindale are working to resolve all issues for a settlement agreement by an upcoming deadline. He stated he would like Council to not approve the resolution because The Mayan has filed a new petition to create a PID on a reduced area that will fund the Regional Sewer Improvements to serve the Mayan Tract. This is needed because the other entities that were in the PID have dropped out. Mr. Earl stated that Council should set a date and time before October 30th to hold the public hearing to create the reduced PID and approve the Settlement Agreement to allow the end of the pending lawsuit and to have a Regional Sewer Solution in the future. Mr. Earl also noted that they are very mindful of developing near floodplains. Mr. Earl is able to answer questions.
