

JUNE 24-28

ACTIVE

KID

ISSUE 3

Site Supervisor: Lindsey
Activity Leader: Kayma

This week Discovery Camp participated in games and activities that focused on the basic anatomy of the human body. They also worked on identifying organs and systems of the body (respiratory, cardiovascular, digestive, ect.) as well as healthy eating, and sports. The campers took a Wednesday fieldtrip to a indoor water splash pad called the Splash Shack in Cedar Park.
