

YOUTH SERVICES

WK. 4 ECOSYSTEM ADVENTURES

August 28, 2020

On the Farm!

THIS WEEK:

Compost in a Bottle

Popsicle Stick Tractor

Baby Chick Snack

My American Farm

Pom Pom Sheep

This week, Youth Services goes on the farm to learn about the animals and crops that are essential to our everyday life!

Fun Fact: There are 914 million acres of farmland in the U.S. alone! Texas has 248,809 farms, more than any other state in the nation.

Compost in a Bottle

Composting is important, especially on a farm because once the organic material is decomposed, it can be added to soil to help plants grow! **Growing Healthy Kids** shares how you can make your own compost in a bottle!

Popsicle Stick Tractor

Tractors can be used to pull a variety of farm implements for plowing, planting, cultivating, fertilizing, and harvesting crops, making them a crucial part of a farm ecosystem!

Simple Everyday Mom shows how you can create your own tractor with popsicle sticks!
