By my signature, I am acknowledging that I am the responsible party in charge or duly authorized representative of the permittee. I also understand that I/company must abide by all of the rules and ordinances of the City of San Marcos, State and Federal laws. All of the information listed in this application is complete and true. I understand that at any time conditions are unsafe or not in compliance with the listed conditions or conditions on-site become unsafe, that any permit, if issued, can be revoked by the City of San Marcos. A complete application is not a permit, nor is it conditional that a permit be issued. All fees shall be paid prior to the work and in full. I/company shall maintain our own insurance and coverage assuming all liabilities potential and unknown. I also understand that this application is not inclusive and other permits may be required by other departments and entities.

By: _____

Date: _____

Contractor will be able to print approved plans from www.mypermitnow.org
Approved plans must be on job site

**Permit requirements are listed below. Incomplete submittals will not be processed.
All submittals are required to be in PDF format
 Submit to www.mypermitnow.org**

<p><u>Fire Sprinkler Systems</u></p> <p>Work involving ≤10 heads to existing system</p> <p>Submit scope of work to: fireplan@sanmarcostx.gov</p> <p>Must include:</p> <ul style="list-style-type: none"> Company name RME Signature License number Location of work Reason for work Description of work 	<p><u>Fire Alarm System</u></p> <p>New system submittal requires:</p> <ul style="list-style-type: none"> 1 set of plans Scope of work Voltage drop & battery calculations Copy of TCEFP ACR Copy of TCEFP APS or stamped by Texas Engineer Cut sheets and details of devices (UL listings and power requirements)

<p><u>Chemical Fire Suppression Systems</u></p> <p>New system submittal requirements:</p> <ul style="list-style-type: none"> 1 sets of plans Schematic of system Copy of TCEFP lic/reg Floor plan w/ system and components Device and specification sheets 	<p><u>Above/Underground Storage Tank Removal/Install</u></p> <p>To take action on storage tanks require submittals:</p> <ul style="list-style-type: none"> Site plan with property/building lines Type, style, and number of tanks, dispensers, pipe All testing certificates Specification of compaction and cover for pipe Letter identifying electrical contractor Copy of TCEQ tank install license Secondary containment means with calculations TCEQ receipt of UST construction notification (Where applicable)

Most plan reviews will take up to (10) working days. Incomplete submittals will increase this review time. It is important that specification information accompany the submittals to our office. The information listed above is not intended to be an inclusive list of required items but a reference point to start the process. In most cases, this information will be all that is required (newly developed processes and systems may require additional information or manufacturers information).
