

Flower Craft Instructions

Supplies:

- *1 Toilet Paper Tube cut in half
- *1/4 Sheet of Tissue Paper
- *1 Pipe Cleaner
- *2 different colors of paper cut into 4 circles each with a hole punched through the middle. (use the toilet paper tube as a guide to draw the circles.)
- *1 leaf shape cut out of another color
- *Scissors, Glue, Hole Punch, Markers

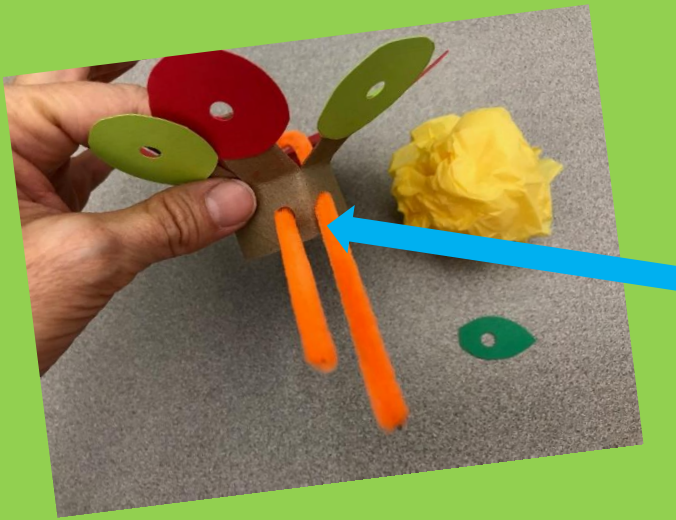

1. Cut eight symmetrical snips halfway down the tube for the petals. Then, bend the petals back.

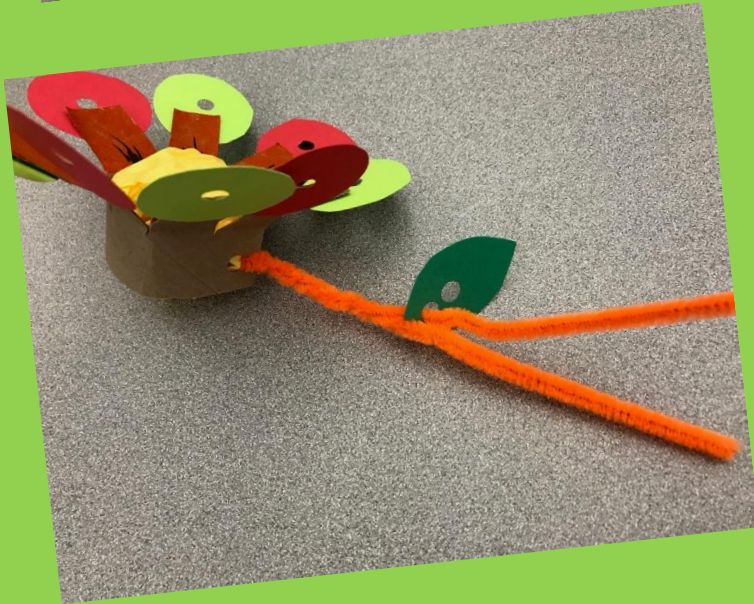

2. With your marker, color the petals. If you see printed words on the petals, you can use a darker color to cover it up.

3. Next, glue the colorful circles on the back of the petals.

4. Punch 2 holes on the toilet paper tube for the pipe cleaner to slip through. Scrunch up the tissue paper to make the center of the flower.

5. The final step is twisting the pipe cleaner. When you get half way down, thread one pipe cleaner through one of the holes in the leaf and then continue to twist until you reach the end.

Voilà!

A flower to give
to a friend!
