

## Supplies

- Toilet Paper Roll cut 2 1/2 inches
- Yellow, red, brown, and light blue construction paper
- 3 or 4 pony beads
- Glue stick, stapler
- Tape, and a black pen
- The STRAW is for the TURKEY CALLER  
(instructions on the worksheet)

## Turkey Rattle

1. Cut two head shapes out of the light blue paper (about 1 1/4 inches) and a tear drop shape (1 inch) out of the red paper. The tear drop shape is the *caruncles* of the turkey. Glue it to one of the heads.

2. Next, glue the two heads together. For the *snood*, fold a piece of red paper (an inch) and cut a Florida shape with the fold being the top of Florida. Put glue on the *snood* and place over the beak with the fold crease in line with the beak. Press together.

3. Draw an eye on your turkey head. Turn it over and draw another eye. Staple one end of the toilet paper roll for the turkey body.

4. Squish the toilet paper roll opening in the opposite direction of the stapled side. When you put the two sides together, the toilet paper roll makes a pyramid shape. Tape the end of the turkey neck to the inside of the toilet paper roll. Put beads inside.

**Turkey Call Example**

Instructions on the turkey worksheet.

5. Next, staple the opening shut. (You might need help from a grown up for this.)

6. Cut two right angle pie shapes. The brown paper pie shape is 2 ½ inches on the straight sides. The yellow paper pie shape is three inches on the straight sides. Glue the brown to the yellow matching the right angles.

7. Tape the tail to the bottom of the turkey. I taped it about ½ inch in from the stapled edge of the body. Bend the tail up and your turkey is ready to GOBBLE, GOBBLE , SHAKE!
