

Supplies Needed:

- *Two different colored 8 ½ X 11 pieces of cardstock paper
- *small piece of aluminum foil
- *cut out snowflake from white paper
- *a name badge label
- *ruler, scissors
- *glue, pen

1. Cut out a 4 ½ inch snowflake and decorate it with small triangular aluminum foil shapes. This will be the pop out shape.

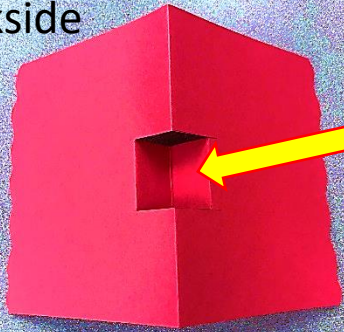

2. Next, fold both of the cardstock paper in half (short side to short side) and cut along the crease. Now, you have two cards for each piece of paper. To make the inside card, (red) trim the top ½ inch. (Notice how the red card is smaller than the white card.) Next, trim the opening side with a wavy pattern. On the front of the white card you can write “**Thank You**” or draw a picture.

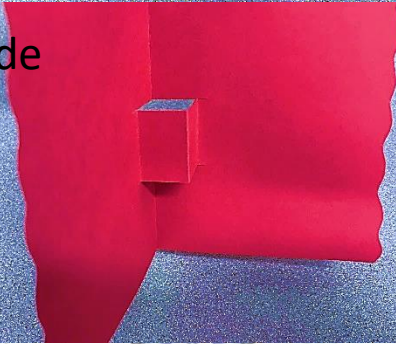

3. To make the pop out, draw two 1 inch lines at the middle of the spine then cut.

Inside

4. Once it is cut, push the "pop out" toward the inside of the card.

5. Put the name badge sticker on the right side of the card. This is where you can write your note. After that, fold the snowflake in half. Match the fold on the snowflake to the crease on the "pop out" shelf. Glue the bottom half of the snowflake to the shelf and the top half to the card.
