

# Easy Adult Card Craft

## Supplies:

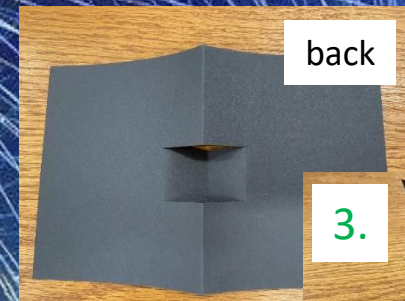

- \*One neon green cardstock 5 $\frac{5}{8}$ " X 8 $\frac{1}{2}$ "
- \*One black construction sheet 5" X 8"
- \*Two 1 $\frac{1}{2}$ " star cutouts (one cardstock and one aluminum foil)
- \*Two 1" star cutouts (one cardstock and one aluminum foil)
- \*Two 2 $\frac{3}{4}$ " lightning bolt cutouts (one cardstock and one aluminum foil)
- \*One name badge label
- \*One A2 envelope (4 $\frac{3}{8}$ " X 5  $\frac{3}{4}$ "")
- \*One packet confetti (small amount)
- \*scissors, glue stick

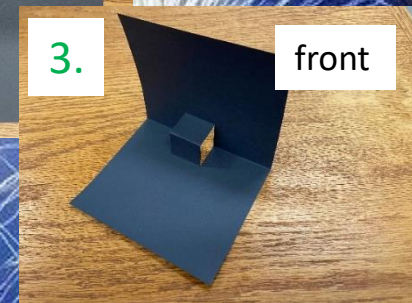

1. Fold both the neon green cardstock and the black construction paper in half (short side to short side).

2. To make the pop-out, draw two 1" lines from the spine (about 1/3 from each edge).

3. Once the lines are cut, push the "pop out" toward the inside of the card and crease.

4. Glue the back of the black construction paper to the inside of the green card.

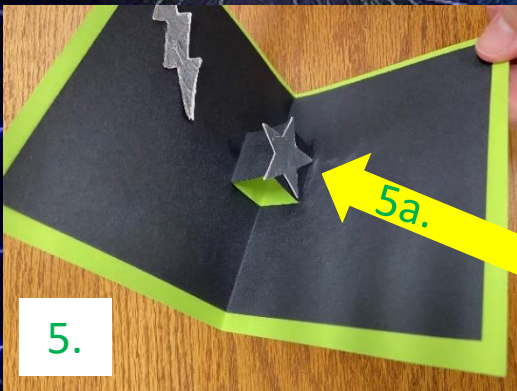

4.

4a. This is what it looks like after gluing.

5. Choose which cutouts you want to use in your card and where you want to place them. Glue the foil cutout to the cardstock counterpart (i.e. lightning bolt to lightning bolt).

5.

5a. When gluing the cutout to the “shelf” only put glue on the bottom half of the cutout.

6.

6. Next, put the name badge sticker in front of the “shelf”. This is where you can write your note.

Add confetti to the envelope for a surprise 😊, address and mail.

**Happy New Year!!**
